About Academy of Art

We are a back-to-basics art program that addresses the needs of your evolving artists. Academy of Art provides a non-judgmental environment for our students to encourage creative expression and development and to further art appreciation and understanding.

Time and Supplies

Lessons are 1-2 hours, depending on the project and number of students. Students will use a variety of media (colored pencils, graphite, markers, oil pastels, watercolors, chalk pastels and specialty papers) while learning to draw. The more projects selected by you, the greater the variety of media available.
